Webcast Auditorium

The Auditorium is where you can attend live webcasts or pre-recorded sessions. The presentations will commence once you select the corresponding "Attend Webcast" buttons, located on the right side of the panel.

To activate a pre-record or attend a live session, on the left you may scroll through the list and select the blue "More Info" button you are interested to attend, and on the right the corresponding "Attend Webcast" button will appear for you to select.

To attend a live webcasts successfully, please make sure JavaScript and Java are enabled in your browser. If needed, verify or download Java [here](#).

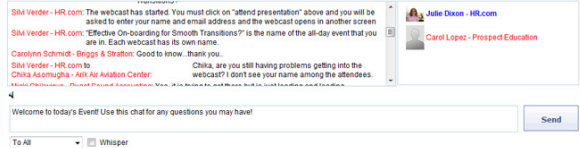

Chatting Feature

Group and private chats are available throughout the event, in all rooms and booths. At the bottom of each page you will see a chat feature. On the right, you can view the profiles of the people who are in the room or booth with you currently. You can chat with everyone simply by entering your comments in the entry field and hitting "Send". It will send your comments to the public chat window.

If you want to **make a comment to one person** specifically, just click their profile and then check "whisper". This will result in only you and them seeing the comment in the public chat window.

If you would like to **have a private chat with someone**, simply right click their profile and choose private chat. A new window will open where you and they can chat one-on-one.

When someone is trying to initiate a private chat with you, you will have a pop-up appear indicating who would like to chat privately. Simply click on "Okay" to have your session begin in a separate screen.
